

The Impact of Pupil Premium Grant on the Attainment of Children entitled to the grant 2016-2017

The percentage of children eligible for free school meals in 2016/2017 was 10% (21), which is below the national average (15.2%-23.9%)

At Ashton St Peter's Church of England Primary, there are a very small number of children (between 1 and 6) entitled to Pupil Premium in each year group. Therefore, comparing the pupil data of the children entitled to Pupil Premium and those who are not is a challenge as one Pupil Premium child can represent such a large percentage; the data can therefore be easily distorted, particularly where there are individual children with individual needs e.g. special educational needs. Whilst the attainment data for each individual child (and cohorts of children in each year group) is explored in depth by school leaders, when comparing to the rest of the school the progress data is used.

The information below compares our Pupil Premium children – 2016/2017 (and Ever-6) to the non-disadvantaged children nationally 2015/2016 (Ofsted Handbook August 2016 Page 54)

Extract from our Ofsted Report 2013;

'The few pupils for whom the school receives pupil premium funding have additional help in lessons, small group and/or one-to-one support. Additional resources are allocated to ensure they can attend extra activities made available to other pupils. Year 2 pupils in 2013 made good progress and achieved standards slightly above their peers in reading, writing and mathematics. Pupils in other year groups achieve standards broadly in line with other pupils and make similar progress.'
